Ergotron

World leader in flat panel monitor mounting solutions

Mount any flat panel monitor anywhere!

ERGOTRON®

400 Series

Premium full ergonomic adjustability; average-sized male and female users† can sit and stand at the same workstation.

400 Monitor Arm:
- Up to 24" height range
- Concealed cable management
- Pivots 180° up/down, 180° right/left, portrait/landscape
- Extenders from 12" to 30" long available

400 Keyboard/Laptop Arm:
- Solid data-entry arm; Extenders same as above
- 180° up/down, 180° right/left

400 Combo—Monitor & Keyboard Arm:
- Mounts keyboard *and* flat panel monitor on single arm
- Up to 14" height range for sit or stand applications

400 Monitor Arm and 400 Keyboard Arm on Pole.

400 Combo Arm on Wall Track. Folds up or down for storage.

400 Monitor Arm suspended from ceiling.

400 Monitor Arm attached to Ergotron technical furniture.

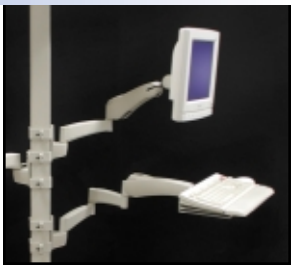
300 Series

Full ergonomic adjustability; average-sized male and female users† can sit and stand at the same workstation. Ideal for the corporate environment.

300 Monitor Arm:
- Up to 20" height range
- 180° up/down, 180° right/left, portrait/landscape
- Extensions 5", 7" and 9" long available: use up to two Extensions for a total reach of 32"

300 Keyboard/Laptop Arm:
- Solid data-entry arm; Extensions same as above
- 180° up/down, 180° right/left

Above: 300 Monitor Arm and one 9" Extension with Vertical Mount.



Above: 300 Monitor Arm and 300 Keyboard Arm with 9" Extensions on Command Post.

Left: Tablet PC and docking station mounted to 300 Arm.

200 Series

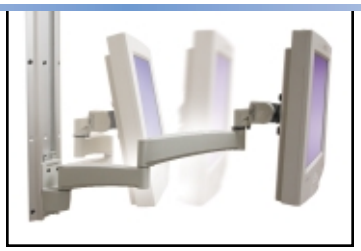
Fixed height, extension and retraction with full monitor adjustment.

200 Monitor Arm:
- Mount up to three monitors on one arm
- Up to 20" extension & retraction with two 9" Extensions
- Pivots 180° up/down, 180° right/left, portrait/landscape
- Extensions 5", 7" and 9" long available: use multiple Extensions as weight capacity permits

200 Keyboard/Laptop Arm:
- Fixed height, stable data-entry arm
- Extensions same as above
- Pivots 180° up/down, 180° right/left

200 Combo—Monitor & Keyboard Arm:
- Mounts keyboard *and* flat panel monitor on single arm; extends/retracts up to 20", folds flat for storage

200 Monitor Pivot:
- Pivots 180° up/down, 180° right/left, portrait/landscape (6" vertical adjustment monitor bracket is available)
- Up to 25 lbs weight capacity



Above left: 200 Monitor Arm on Wall Track.

Left: 200 Combo shown folded back for storage and fully extended.

Above: 200 Vertical Dual-Monitor Arm.

Above right: 200 Triple-Monitor Arm.

Right: 200 Monitor Pivot on Wall Track.

100 Series

Fixed height, low-profile with full monitor adjustment.

100 Monitor Pivot:
- Pivots 180° up/down, 180° right/left, portrait/landscape
- Up to 28 lbs weight capacity

100 Keyboard/Laptop Pivot:
- Pivots 180° up/down (folds up flat)

100 Monitor Pivot.

100 Monitor Pivot on Wall Plate.

Right: 100 Monitor Pivot and Keyboard Pivot on Wall Track. Keyboard Tray folds up for storage.

Where do you need your flat panel monitors?

Whatever your industry or application, Ergotron® mounting solutions save space, provide full ergonomic adjustability and allow you to place any monitor anywhere! Since 1982, Ergotron has designed and engineered products specifically to improve the human interface with computers.

HD Series

Full adjustability, ergonomically accommodates 95% of the population† in either a sitting or standing application.

HD Multi-Monitor Arms:
- Up to 15" height range; 18" long Extender available
- Mount up to three monitors on one arm
- Pivots 180° up/down, 180° right/left, portrait/landscape
- Multi-Monitors, in tandem, rotate 360° and tilt 35°

HD Combo—Monitor(s) & Keyboard Arms:
- Mounts keyboard *and* one or two flat panel monitors
- Up to 15" height range; 18" long Extender available
- Pivots 180° up/down, 180° right/left, portrait/landscape

HD Laptop Arm:
- Up to 15" height range; arm swings 180° right/left
- Shroud/screen tilts 35° forward/back
- 18" long Extender available

HD 45 Arm (for heavy systems):
- Weight capacity up to 45 lbs or more (dependent on monitor dimensions)
- Pivots 180° up/down, 180° right/left, portrait/landscape
- Up to 15" height range on; 18" long Extender available

HD Monitor Pivots (for heavy systems):
- Weight capacity up to 45 lbs or more (dependent on monitor dimensions)
- Fixed height; pivots 180° up/down, 180° right/left
- Extensions 5", 7" and 9" long available for HD Pivots

Top left: HD Combo, insets show Arm with 18" Extender and also shows Arm folded back for storage.

Top middle: HD Dual-Monitor Arm. Inset shows 360° clock-rotation.

Top right: HD45 with Desk Clamp.

Middle: HD Laptop Arm.

Far right middle: HD Triple-Monitor Arm.

Middle bottom: HD Monitor Pivot and 9" Extension with 100 x 200 mm monitor adapter plate; wall plate mount.

Far right bottom: HD Combo Dual-Monitor Arm on Wall Track.

DS100 Series

Suspend multiple monitors on one DeskStand.

DeskStand 100 Series (DS100):
- Free Standing, Desk Clamp and Grommet Mount Bases are available
- View simultaneously up to five monitors on one Stand
- Pivots up to 180° up/down, 180° right/left, portrait/landscape

DS100 Quad-Monitor configuration.

Rear view of DS100 shows cable management system.

DS100 Quad-Monitor configuration using Paraview Technology. Inset shows grommet mount base.

VL Series

Extremely low profile, wall mount; ergonomically exceeds the average-sized male and female users† height need in either a sitting or standing application.

Vertical Lift (VL):
- 9" height adjustment
- System depth can fold to ≤ 4" deep from wall
- 10° up/down monitor tilt
- Keyboard Tray folds up flat
- Slide-out Keyboard Tray is available

Left inset: VL folded flat for storage.

Above: VL with Slide-out Keyboard Tray.

MD Series

Rack-mount drawers fold back into rack for storage; monitor and/or keyboard are not included so you can use your own equipment.

Monitor Drawer, MD101:

- Requires only 3U of space
- 180° up/down, portrait/landscape (monitor can be stored in portrait position—accommodating large monitors)
- Integrated cable management system

Monitor and Keyboard Drawer, MD102:

- Requires only 3U of space
- Integrated cable management system

MD101: Your monitor can be pulled out for viewing, and stored flat, safely within the 19" rack/enclosure.

MD102: Keyboard and mouse are easily stored within drawer.

Mobile Series

Ergonomic carts; average-sized users† can sit or stand at the same workstation. Allows integration of personalized hardware and software. The Ergotron Power Systems (SPS & EPS) enable true wireless applications.

StyleView™ Cart:

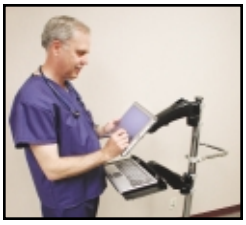
- Flat Panel Monitor or Laptop models
- 20" single-motion height adjustment
- UL 60601-1, EN 60601-1 and IEC 60601-1, CSA certified and listed power system and cart for safety
- Other highlights include: 18" x 18" Base, generous Worksurface, Dual Casters—two are lockable, and integrated Cable Management System
- Options include: StyleView Power System (SPS), Locking Drawer, Lithium Battery Kit, Scanner Holder, Universal CPU Holder/Security Kit

MWS Cart:

- Up to 20" height range
- 180° up/down, 180° right/left, portrait/landscape
- Optional Ergotron Power System (EPS)

MWC Cart:

- Up to 14" height range
- 180° up/down, 180° right/left, portrait/landscape
- Flat Panel or CRT Monitor compatible



Above left: Flat Panel Monitor StyleView Cart shown with Universal CPU Holder and SPS.

Above: MWS Cart configured with dual-monitors and EPS.

Above right: Laptop StyleView Cart.

Left: MWS Cart holding a Tablet PC and keyboard.

Right: MWC Cart with Flat Panel Monitor Arm.

FX Series

Fixed height; mount flat panel monitors, LCD TVs or large displays to a vertical surface like a picture hung on a wall.

FX30:

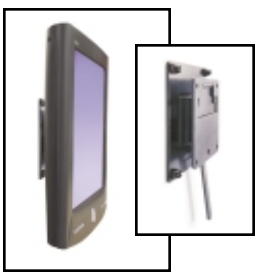
- Monitor remains 3/4" from wall
- Quick-release lever
- Holds monitors up to 30 lbs

FX75:

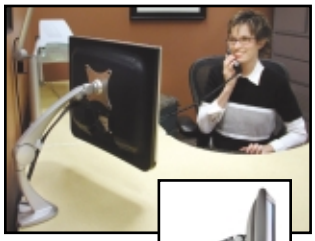
- Display remains < 1" from wall
- Quick-connect design
- Holds larger displays up to 75 lbs
- Mounts to walls, poles, and Command Post.

FXT75 (Tilt):

- 25° of tilt
- Works with displays weighing 30 to 75 lbs
- Mounts to walls, poles, and Command Post.



Neo-Flex™
by Ergotron®

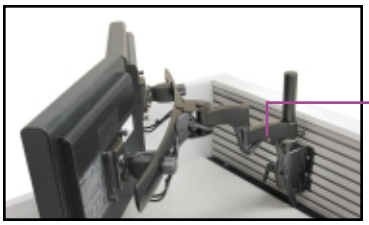


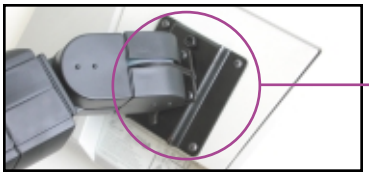
The Neo-Flex Arm is the perfect balance of function and style for office settings—a great value at a great price. It features an 8" height range; 18 lbs weight capacity; height-adjustment button and three-year warranty.

† Ergotron products are based on the ergonomic data of scientific anthropometric studies and can be adjusted for each individual user.

The Ergotron Advantage

Quality Design





Industry-Leading Warranty: We have a five-year warranty on Ergotron Series Arms/Pivots and a LIFETIME warranty on structural components.

Superior Cable Management: Ergotron offers a comprehensive product package that conceals, organizes and manages cumbersome cables and wiring.

Ergotron mounting solutions are VESA® FDMI™ Compliant: Flat panel monitors compliant with "VESA MIS-D, 100/75, C" or "VESA MIS-E, C" standards will easily attach to Ergotron products.

Quality Construction: For long-lasting performance, Ergotron Product Series are constructed from steel and high-impact plastics, and undergo extensive performance tests of up to 50,000 cycles. Also, Ergotron holds the TÜV GS safety certificate for the majority of its flat panel monitor arms.

Multiple Options & Accessories: Wall Track, Slat Wall Interfaces, Pole Clamps, Quick-Release Brackets, Extensions, Keyboard and Mouse Holders, CPU Holders, Power Strips and more are available.

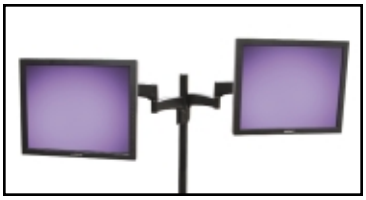
Ergonomic Design: Ergotron products and recommended mounting heights are based on scientific anthropometric studies, and can be adjusted for each individual. Easily configure your computer workstation for sitting, standing or anywhere in between.

VESA, FDMI and the VESA Mounting Compliant logo are trademarks of the Video Electronics Standards Association.

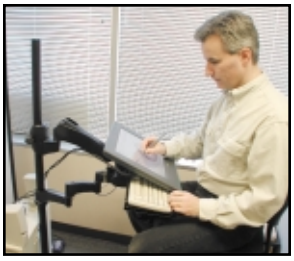
Patented Technology

Multiple Monitor Mounting: Using Ergotron's patented **Paraview Technology**, several monitors can be mounted on one arm or stand—efficiently utilizing available space. Each monitor can be individually adjusted. This layout increases data visibility and allows simultaneous monitor viewing.

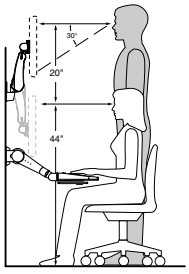
Custom Design Leadership



Our staff of experienced engineers and ergonomics experts can develop a customized solution to satisfy the most demanding computer mounting applications. If you do not see a product that meets your requirements, call us and we will tailor a solution to your needs.



True Ergonomic Adjustability

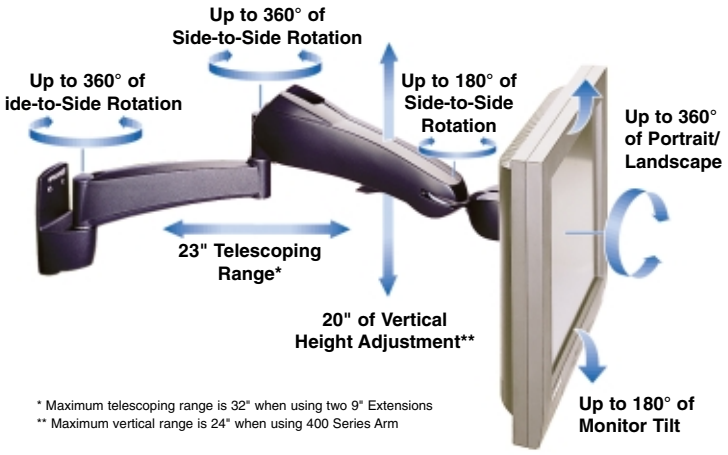


Ergonomic Technology: A single Ergotron Arm can span the 20" difference of the seated average female eye height to the standing average male eye height. Users can choose to sit or stand at the same workstation. Most Ergotron mounting solutions accommodate the eye heights of up to **95% of the population**—when sitting or standing. Ergotron offers a variety of keyboard options: some have a fixed descent below the monitor; others provide both vertical and tray tilt adjustability. In all cases, an attempt should be made to provide an optimum distance between the keyboard tray and the screen. See our web site, www.ergotron.com, and go to the Ergonomics section for more complete information.

Features & Benefits

General Range of Motion

300 Series Monitor Arm with 9" Extension



Up to 360° of Side-to-Side Rotation
Up to 360° of ide-to-Side Rotation
Up to 180° of Side-to-Side Rotation
Up to 360° of Portrait/ Landscape
23" Telescoping Range*
20" of Vertical Height Adjustment**
Up to 180° of Monitor Tilt

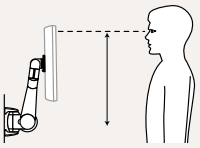
* Maximum telescoping range is 32" when using two 9" Extensions
** Maximum vertical range is 24" when using 400 Series Arm

Ergotron Series Arms/Pivots...

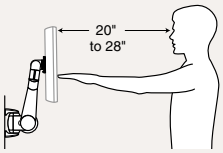
- are fully ergonomically adjustable—increasing comfort and production.
- mount multiple monitors on one Arm using patented Paraview Technology.
- can be mounted to virtually any horizontal or vertical surface.
- have an industry-leading warranty of five-years.
- undergo extensive performance tests of 50,000 cycles.
- are the most comprehensive monitor mounting systems in the world!
- free up precious space by suspending or lifting flat panel monitors.
- conceal and manage cumbersome cables and wiring.
- are VESA® FDMI™ standard compliant for easy monitor attachment
- are of high-quality design for long-lasting performance and warranties.
- hold the TÜV GS safety certificate for flat panel monitor arms.
- have weight capacities up to 45 lbs or more, dependent on monitor dimensions (see HD Series), the FX75 and FXT75 hold up to 75 lbs.
- place monitors from 3/4" to 55" from wall.
- can be adjusted to accommodate changes in monitor sizes and weights.
- have multiple Options & Accessories to choose from: Wall Track, Slat Wall Interfaces, Pole Clamps, Quick-Release Brackets, Extensions, Keyboard and Mouse Holders, CPU Holders, Power Strips and more.

A **truly ergonomic** computer mounting system will allow you to adjust your monitor and keyboard in the following five positions—whether you are standing or sitting.

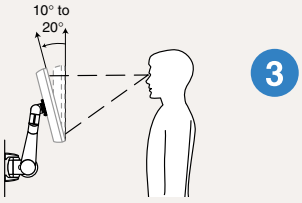
Adjust the **monitor height** so that the top of the screen is at or slightly below eye level. Your eyes should look slightly downward when viewing the middle of the screen.



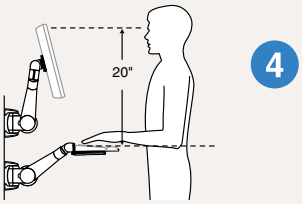
Adjust the **monitor distance** to about 20" to 28" or one's arm length.



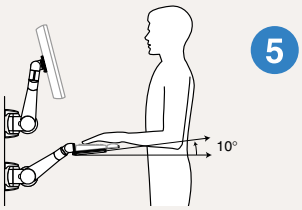
Tilt monitor back about 10° to 20° so the top and bottom of the monitor screen are the same distance from your eyes. Make minor adjustments to eliminate glare as needed.



Set the **keyboard height** at your elbow height (usually about 20" below the top of monitor screen).



Tilt keyboard so the rear of the keyboard slopes downward at a 10° angle.



Call **1-800-888-8458** for a free on-site needs evaluation or visit us on the web at **www.ergotron.com**.
